FOUR POSITIVE CASES OF CORONAVIRUS (COVID-19) IDENTIFIED IN PRATT COUNTY

The Pratt County Health Department reports its 3rd through 6th positive cases of coronavirus (COVID-19) in Pratt County.

The Health Department was notified of the confirmed positive cases on Saturday, June 13th at 9:00 P.M.

The new cases involve two males and two females, non-associated with each other. Patients' ages range from 40 to 90 years old. No known source of contact or exposure has been identified at this time. All individuals were asymptomatic and only tested as a pre-operation requirement. All individuals are following the quarantine guidelines and instructed to stay home. The Pratt County Health Department is performing patient contact investigation to learn who the patients may have had contact with during their contagious period. Any individuals who are at risk of exposure will be contacted as soon as possible. The Health Department will monitor all contacts for fever and respiratory symptoms. No further information about the patients will be released.

Know the Symptoms of COVID-19. Not everyone experiences symptoms in the same way. Symptoms can appear anywhere from 2-14 days after exposure.

Please call the Health Department or your primary care physician with any concerns regarding symptoms or testing.

We strongly encourage everyone to continue to practice good hygiene by frequently washing your hands with soap and water for 20 seconds or more, disinfect high touch areas often, practice social distancing, and wear a mask when social distancing cannot be maintained.
